WOOD-BASED PANELS THAT OPEN UP NEW PERSPECTIVES.

From design to completed project, every step counts. After all, designs are only really appealing if they can also be realised. By choosing Pfleiderer, you're off to the right start. Aesthetic, functional and by design. In the 2021–2024 brochure, we introduce you to our extensive product range designed to make you more successful. Stylish, expressive and modern decors, innovative surface textures and core panels all come together perfectly to meet your technical, cost and user requirements. From high quality individual items to sector spanning concepts – you can turn your vision into reality with practical, high quality solutions from Pfleiderer.

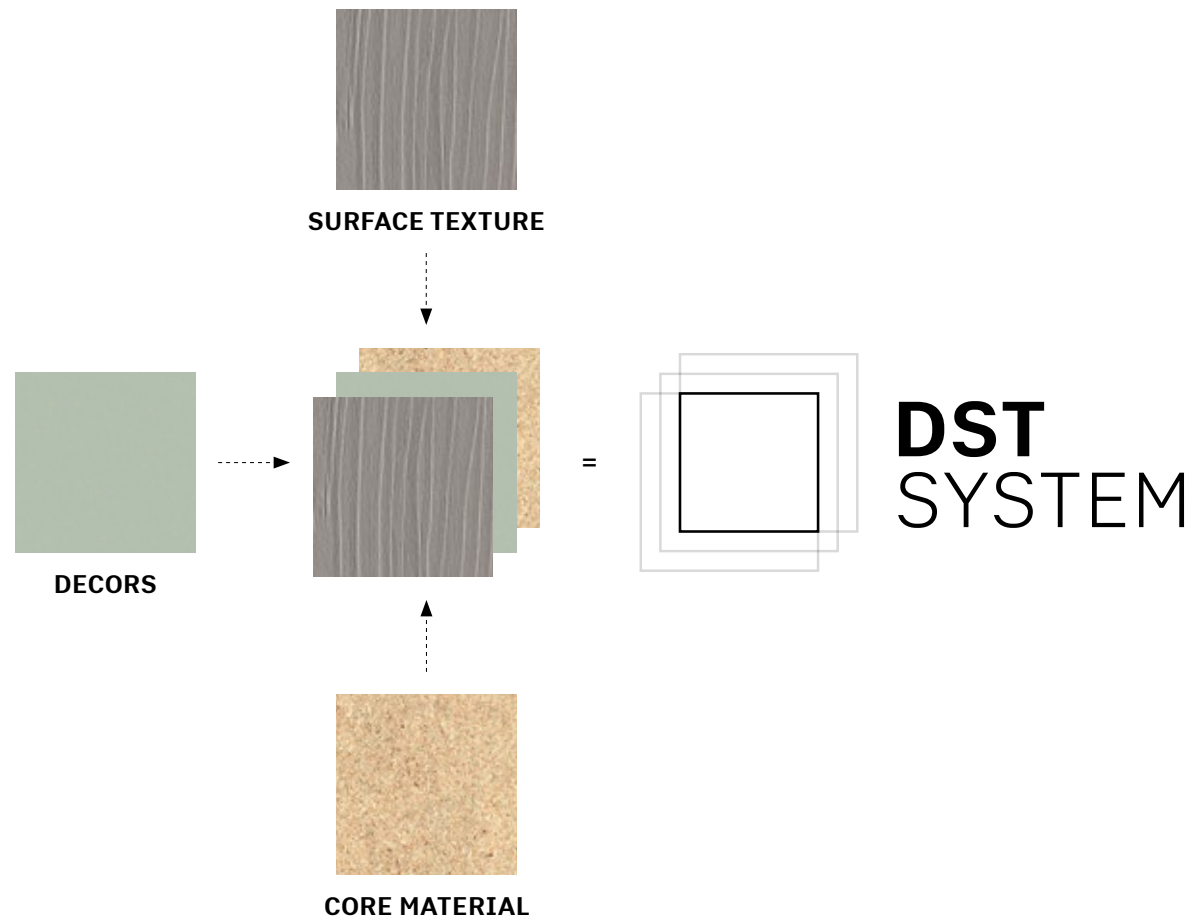

Make work easier – with the Pfleiderer WorkApp! Simply scan decors with your smartphone, receive combination recommendations and request samples. Learn more at workapp.pfleiderer.com.

DESIGN AND FUNCTION IN PERFECT HARMONY

The DST system opens up a variety of technically and optically tested combinations of decors, structures and core materials. Regardless of whether you want to use a specific shade throughout, have to meet specific fire safety regulations or need an easy to clean surface.

Wide selection, optimum availability.

With the DST EXPRESS collection, Pfleiderer ensures that you can get our standard format wood-based panels as fast and as reliably as you need to. The EXPRESS collection covers all finishes as Duropal HPL and DecoBoard P2 as well as selected finishes as Duropal Flat bonded element P2. In addition, PrimeBoard XTreme, Duropal XTreme, Duropal XTreme plus and Duropal SolidColor XTreme represent many of our innovative FunXTional products that are also available from stock.

The DST stock programme is usually with your retailer within 72 hours; the fast delivery programme is available within 10 working days (subject to your retailer's despatch schedule).

OVERVIEW OF PFLEIDERER EXPRESS TEXTURES

Collection textures.

You will find the following textures, linked to matching finishes, in our Express collection. For inspiring designs that perfectly set the scene in any room!

Textures FunXTional products.

Special products with innovative surface properties provide for extraordinary experiences! Stylish, highly aesthetic and fascinatingly functional. For example the matt XTreme with its unique anti-fingerprint effect.

OVERVIEW OF PFLEIDERER PRODUCTS AVAILABLE FROM STOCK

Materials that unlock new possibilities.

Good ideas need solid foundations. Ideally from the Pfleiderer range of core panels. The range includes raw panels for timber construction, cores for lamination and decorative panels – with direct lamination, high quality coating or robust HPL surfaces. Whether you need sustainably certified chipboard, fibreboard, compact or composite materials to realise your ideas. Here at Pfleiderer, you can always find a well designed, cost effective and functional solution for your challenging fire prevention requirements, structural load capacities and lightweight constructions!

Duropal HPL

All decors as HPL in two formats from stock:
4,100 x 1,300 x 0.8 mm
2,800 x 2,070 x 0.8 mm

Additional textures available on request, as indicated below the finish on the Express card.

DecoBoard P2

All decors in the Express Collection as DecoBoard P2 in **2,800 x 2,100 x 19 mm** from stock. For other stock formats see comments under the decor of the Express card.

All decors in the Express Collection as DecoBoard P2 in **2,800 x 2,100 x 8–38 mm** and are available from in the Fast Delivery Programme in the additional textures mentioned.

Elements

Selected finishes available from stock as **2,800 x 2,070 x 19 mm** Flat bonded Element P2.

All HPL on-stock versions also available as Duropal Flat bonded element P2 in the quick delivery range in the formats **2,800 x 2,070** and **4,100 x 1,300 mm**.

FunXTional Products

PrimeBoard XTreme

PrimeBoard XTreme Matt (XT) / PrimeBoard XTreme High Gloss (XG)

PrimeBoard XTreme P2
16 decors in the format **2,800 x 2,100 mm** on stock.

PrimeBoard XTreme MDF Black Natural (XT)
in the format **2,800 x 2,100 x 19 mm** on stock.

Duropal XTreme

13 selected HPL decors in XTreme in **4,100 x 1,300 mm** on stock.

Duropal SolidColor XTreme
5 selected decors in the format **4,100 x 1,300 mm** on stock.

Duropal XTreme plus

13 selected HPL decors in XTreme plus in **4,100 x 1,300 mm** on stock.

See our Workbook or pfleiderer.com for more information about our texture schemes and the full range of different core materials as well as technical specifications.

FUNCTIONAL PRODUCTS

FUNCTIONALITY DOWN TO THE LAST DETAIL: UNIQUE XTREME SURFACES

High-end finish for extraordinary designs.

Surfaces shape our perceptions through how they look and feel. They make materials tactile and stimulate our senses. Pfleiderer's functional XTreme surfaces raise the bar in this respect. They combine a refined look and a warm, velvety feel with different technical properties in a unique way using stylish and perfectly coordinated decor combinations – and they are suitable for a range of applications. The smooth, super-matt XTreme surfaces with their anti-fingerprint effect are available as robust high-pressure laminate or compact laminate, as direct coatings on decorative PrimeBoard XTreme and also on UV- and weather-resistant Duropal XTerior compact high-pressure laminate for outdoor use. So, you can realise super-matt design concepts that are aesthetically pleasing, robust and suitable for everyday use, wherever and whenever you like. In addition, for PrimeBoard XTreme we offer XTreme High Gloss, the perfect mirror finish for vertical applications.

Duropal XTreme

Extreme matt appearance meets high durability. The high pressure laminate for challenging ideas – postformable, easy to clean and resistant to fingerprints or traces of grease.

www.blauer-engel.de/liz76

Duropal SolidColor XTreme

Ultra elegant, through-coloured laminate with an extreme matt look and anti-fingerprint effect – a modern monochrome design for a near seamless look – ideal for high quality interior design.

Duropal XTreme plus

Significantly more scratch-resistant and durable than other comparable matt surfaces! Duropal XTreme plus also brings the unique XTreme look and feel to horizontal surfaces and edges that are subject to heavy use.

www.blauer-engel.de/liz76

Duropal Compact XTreme plus

The ultimate in the XTreme family: Duropal Compact XTreme plus for high quality durable furniture and fixtures, with an anti-fingerprint effect and a super matt surface. Sophisticated, more scratch-resistant and durable than other comparable matt surfaces!

www.blauer-engel.de/liz76

PrimeBoard XTreme

High quality, multi-layer lacquered board, in a choice of XTreme Matt (XT) and XTreme High Gloss (XG). Easy to process and ultra elegant.

www.blauer-engel.de/liz76

DESIGN COLLECTION

including on-stock and fast delivery programme

All decors of the Design Collection in the DST System are available as HPL and DecoBoard.

UNCOMPROMISINGLY GOOD: AT PFLEIDERER QUALITY HAS A SYSTEM

You can rely on security and transparency.

Producing wood-based materials sustainably and in the highest quality is a challenge. As a leading company in the wood industry, Pfleiderer faces up to this challenge at all levels – and with traditional entrepreneurial diligence. With modern production sites, an integrated management system for quality, environment, energy and safety, and a corporate culture that continuously develops these values. Because for us, the compatibility of quality and sustainability is a matter of course!

In concrete terms, this means that we certify our processes throughout the entire value chain – often far beyond what is legally required. We attach great importance to being as transparent as possible for our customers and partners. Our environmental management systems at our locations are certified according to DIN ISO EN 14001 and ISO 50001. Also we belong to the Quality Association for Wood-based Panels and have certifications according to FSC® (License Code: FSC C011773) and PEFC (License Code: PEFC/04-32-0828). And if you want to know more, just contact us. We will be happy to give you detailed information!

MADE IN GERMANY

SUSTAINABILITY

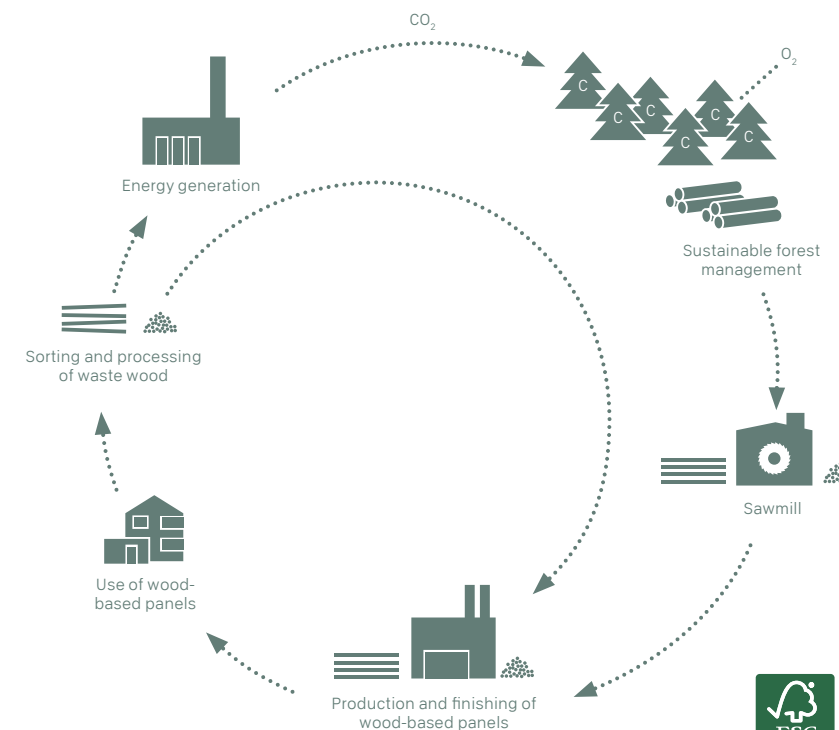

DESIGNED FOR A FUTURE WORTH LIVING: SUSTAINABILITY AT PFLEIDERER

Responsibility for tomorrow starts today.

Those who rely on wood as a raw material rightly expect an environmentally conscious, "green" material. We at Pfleiderer want to do full justice to this and have therefore been offering an extensive range of low-emission and environmentally friendly products for many years. Sustainability – in addition to ecological, social and economic aspects – as well as careful use of natural resources are permanent pillars of our corporate philosophy. Consistent recycling management and wood recycling ensure that no trees are felled for our products. Through regular independent evaluation of our procurement and production processes, we are able to ensure that we can offer our customers the best possible service, manufacturing and logistics processes as well as a corporate culture of accountability. We ensure that that you can use our products with a clear conscience and recommend them to your customers.

A healthy full range of products.

Pfleiderer focuses on low-emission materials, e.g. F**** glued panels for interior design or LivingBoard with formaldehyde-free gluing. Many of our board materials have been awarded the Blue Angel for a healthy indoor climate for many years. At the beginning of 2020, we succeeded in obtaining this award – in addition to raw boards and directly coated products – also for large parts of the HPL range. This means that you can also fall back on a consistently sustainable full product range for demanding projects – and fulfil customer wishes without compromising on ecology and sustainability.

Through multi-stage wood utilisation (so-called cascade utilisation), wood recycling, and the use of forestry wood and industrial waste wood for high-quality materials with a long service life, Pfleiderer conserves valuable resources and actively contributes to reducing carbon emissions, air, water and soil pollution and energy consumption. We control the wood mix individually, depending on the product, to achieve a perfect balance between quality requirements and resource conservation.

ILLUSTRATIVE AND RESULTS-DRIVEN: DIGITAL SERVICES FROM PFLEIDERER

The digital world has opened up new possibilities and advantages when working with wood-based panels. Pfleiderer offers its partners a wide range of tools that make selecting, designing, planning, visualising and realising projects significantly easier. Find out about our digital services – you'll never want to be without them again.

WorkApp

workapp.pfleiderer.com

The quickest way to find the answers to all your decor-related questions: simply open the Decor Scanner on your smartphone, scan the decor, view detailed information straight away on your phone, receive combination recommendations and request the matching sample directly from the app, if required. It is compatible with all smartphones and, of course, you can also easily add the app to your home screen.

Digital Product Finder

productfinder.pfleiderer.com

Which decorative panel is best suited to which application? Which product has particular material properties or surface characteristics? What is available quickly? Use the digital product finder to find the perfect material for your application in just a few steps. After all, bringing together creative ideas with construction requirements is what Pfleiderer does best!

Room Designer

roomdesigner.pfleiderer.com

Combine all the decor collections in 26 different digital room layouts – and show your customers in advance how bespoke design options could look in their home, health or care setting, office, hotel, shop, caravan or yacht. Easy to use, with detailed decor lists and smart filters as well as an interactive compare function. You can print and download the results or save them as favourites.

Moodboard Tool

moods.pfleiderer.com

Get the first glimpse of your desired decor before you order! Just upload your own image to our Mood Board Tool. The tool extracts the colours from your motif and suggests suitable decors from our portfolio. You can then save your created mood board in your account or send it via e-mail in order to discuss the selection further.

3D-Viewer

3d-viewer.pfleiderer.com

In order to properly evaluate a surface texture, you have to be able to see it from different angles. That's why we provide the 3D VIEWER for surface textures! It enables you to get a realistic 360-degree view of our surface textures from all sides and in different lighting conditions. A useful tool for everyone who appreciates quick and illustrative support when evaluating and deciding on different textures!

Individual Configurator

individual.pfleiderer.com

The idea behind Pfleiderer's individual design concept is to enable almost unlimited creative freedom starting from a lot size of one. It allows you to use your own motifs – without compromising on the quality of the surface or core materials. You can use the Individual Product Finder to configure your unique product easily online, from selecting the core material to uploading your motif and enquiring about production.

BIM Data and Specifications

BIM.pfleiderer.com

Access the BIM product data from Heinze directly via our website – including all of the datasets for the entire Pfleiderer range. You can access all the relevant product information and downloads in one place. From the BIM data itself to additional product information, decor and texture samples as well as declarations of origin and conformity. On our tendering support page, you can also find text blocks for the different products.
